Corps Solutions

Organizational Development & Staff Leadership Training

Our unique approach to Organizational Development & Staff Leadership Training focuses on developing mechanisms and processes that facilitate horizontal integration in accomplishing organizational tasks and creating individual excellence to include:

- Developing deliberate planning skill proficiency and training individuals to lead planning efforts
- Improving critical thinking, decision-making and problem solving skills through guided facilitation
- Aiding organizational development of decision support tools and continuous process improvement methodologies
- Providing organizational planning best practices and staff integration processes and methodologies

Our Ethos

People. We are defined by the people we hire and by how well we take care of our clients and each other. We are a partnership where each employee is expected to contribute to the greater good of the company and in return shall share in the success that their work made possible.

Integrity. We are resolute in demonstrating our integrity in our words and deeds. We conduct business ethically, put our customer's best interests first, always accomplish the mission and deliver on all of our promises.

Value. We deliver consistent, high quality services and products while maintaining competitive prices. We do this by hiring employees who share our values and sense of purpose, through continuous process improvement and quality management and by keeping our organization lean.

Training & Education Support

Corps Solutions provides a full range of training and education services, staff augmentation with the capacity and expertise to support military service, interagency training and doctrine development. Our approach to Training & Education Support includes:

- Developing training events and programs of instruction directly related to unit training and readiness requirements
- Providing mobile training teams and designing customized support packages oriented to specific levels of training
- Delivering entry-level through advanced degree instruction focused on improving reasoning and critical thinking skills
- Implementing a full range of Instructional Systems Design services including curriculum development, classroom instruction, blended learning techniques and learning management systems

Scenario Development & Exercise Design

Corps Solutions supports US defense establishment and emerging national security customers in carrying out critical training by developing scenarios and exercises closely replicating real world conditions and threat situations to include:

- Producing customized scenarios related to real-world events
- Utilizing vignettes, case studies and role players to achieve learning outcomes
- Employing methodologies and processes that encourage problem solving, course of action development and analysis and plan implementation
- Planning, preparing, executing and analyzing live, virtual and constructive exercises and war games
- Leading planning conferences, producing master scenario events lists, facilitating exercise control and execution and developing detailed after action reports

Strategy Development & Operational Planning

Corps Solutions offers senior executives and intermediate level leaders experience in Strategy Development & Operational Planning to include:

- Developing strategic objectives for leadership development, military operations and campaigns, crisis response and contingency operations, and interagency and intergovernmental operations
- Conducting strategic analysis, establishing frameworks for decision-making and aiding detailed planning
- Helping managers establish clear objectives, recruit team members and develop better leaders
- Collaborating with organizations to develop Measures of Effectiveness and Measures of Performance through which they can better assess progress towards stated goals and objectives
